

TASK-1

Name: Shaik Chandini

Email id: shaik.chandini5566@gmail.com

Task Title: Web page for the Company Member Team Page

Task Description: Our first project task is to develop a responsive web page for the Company Member Team Page. Utilize HTML and CSS to bring this design to life, ensuring responsiveness across various devices. This project allows us to showcase our coding skills and creativity while adhering to the design reference.

Steps Taken:

- I just simply implemented the code in the notepad.
- For that I selected the new file in the notepad and wrote the html code.
- Next I selected another new file in the notepad and wrote the css code.
- Saved html code file as home.html and css code file as style.css.
- Run the home.html code file in the chrome.

Challenges Faced:

- ❖ The major issue I have faced was while adjusting the allignments of the borders and headings.
- ❖ Majorly I do not face much issues because I have some small web pages in our college.

Solutions Implemented:

HTML code:

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
  <title>Company Name</title>
  <link href="https://fonts.googleapis.com/css2?family=Lobster&display=swap"
rel="stylesheet">
  <link rel="stylesheet" href="style.css">
  <style>
    body {
      background-image:
url('https://png.pngtree.com/thumb_back/fh260/background/20210421/pngtree-
luxury-green-3d-objects-frame-background-image_608983.jpg');    /*    Replace
'background.jpg' with the path to your background image */
      background-size: cover; /* Ensures the background image covers the entire
page */
      background-repeat: no-repeat; /* Prevents the background image from
repeating */
      background-attachment: fixed; /* Makes the background image fixed when
scrolling */
    }
    .header, .content, .profiles {
      background-color: rgba(255, 255, 255, 0.8); /* Adds a semi-transparent
background to the content sections */
```

```
padding: 20px;
margin: 20px;
border-radius: 10px;
}
.header h1 {
    font-family: 'Lobster', cursive;
}
.profile img {
    width: 100px;
    height: 100px;
    border-radius: 50%;
}
.profile-info {
    text-align: center;
}
.profile-row {
    display: flex;
    justify-content: space-around;
    margin-bottom: 20px;
}
</style>
</head>
<body>
<div class="header">
    <h1>Veri Tech Software Services</h1>
```

</div>

<div class="content">

<p class="styled-paragraph marquee">Welcome to Veri Tech Software Services, where a dedicated team of professionals works together to bring innovation, creativity, and expertise to the software industry. Get to know the individuals who make our company thrive.</p>

Learnings:

- I have learnt many new things in designing this web page.
- I got some good knowledge about how the web page is designed and how to add new elements and how to add the styling to the webpage with different styling elements.
- I knew how the css works for styling the webpage and also learnt how the image can be inserted in the small circles .

Project Update:

- Successfully implemented the webpage assigned to the interns.
